Please join the conference call at least 10 minutes early to register. The webcast will be archived on the Coherus website.

About Coherus BioSciences, Inc.

Coherus is a leading biosimilar company that develops and commercializes its own high-quality therapeutics as well as those of others seeking capable access to the United States market. Biosimilars are intended for use in place of existing, branded biologics to treat a range of chronic and often life-threatening diseases, with the potential to reduce costs and expand patient access. Composed of a team of proven industry veterans with world-class expertise in process science, analytical characterization, protein production, sales and marketing and clinical-regulatory development, Coherus is positioned as a leader in the global biosimilar marketplace. Coherus commercializes UDENYCA® (pegfilgrastim-cbqv) in the U.S. and has received regulatory approval for UDENYCA® in the European Union. Coherus is advancing late-stage clinical products CHS-1420, Humira® (adalimumab) biosimilar, Bioeq's Lucentis® (ranibizumab) biosimilar and Innovent's Avastin® (bevacizumab) biosimilar towards commercialization, and early-stage clinical products, CHS-2020, Eylea® (aflibercept) biosimilar, and CHS-131, a small molecule for nonalcoholic steatohepatitis (NASH) and multiple sclerosis.
