This filing relates to the proposed merger involving Coherus BioSciences, Inc., a Delaware corporation (the "Company"), Crimson Merger Sub I, Inc., a Delaware corporation and wholly owned subsidiary of the Company ("Merger Sub I"), Crimson Merger Sub II, Inc., a Delaware corporation and wholly owned subsidiary of the Company ("Merger Sub II") and Surface Oncology, Inc., a Delaware corporation ("Surface"), pursuant to the terms of that certain Agreement and Plan of Merger, dated as of June 15, 2023, by and among the Company, Merger Sub I, Merger Sub II and Surface.

Hi _____,

I write to make sure that you saw the news of our intention to acquire Surface Oncology (SURF). Today's PR: www.ourpr.com. In 2021 we began the strategic repositioning of our business model, using the cash flows of our biosimilars business to build an innovative and differentiated I-O franchise. The opportunistic acquisition of SURF advances our execution of our strategy in the following ways:

- Expands the commercial potential of toripalimab, our next generation PD-1, with the addition of competitively positioned and highly complementary assets: IL-27 (SRF388) and CCR8 (SRF114) antibodies that move our pipeline beyond checkpoint inhibition to agents targeting the immune-suppressive mechanisms of the tumor microenvironment
- Expands the partnering opportunities for toripalimab in additional combination therapies
- Bolsters our balance sheet with up to \$25 million in net cash projected at closing
- Drives at least \$50 million in potential R&D cost reductions through 2025 by prioritizing competitively positioned clinical programs
- Opens the potential for meaningful non-dilutive capital from monetization of SRF338 and SRF114 ex-US rights
- Provides Coherus shareholders the potential to receive up to 30% of future milestone payments from SURF's NVS and GSK-partnered programs

Meanwhile, our biosimilars revenues are experiencing accelerating growth consistent with our plans. Today we provided guidance that we project net product revenues from Udenyca (biosimilar pegfilgrastim) and Cimerli (biosimilar Lucentis) to total between \$48M and \$53M in 2Q'23 versus \$32.4M reported for 1Q'23.

We remain confident in our goal to deliver at least \$100M in Cimerli revenues this year and at least \$275M in total revenues. Our expenses remain under control and we continue to anticipate to become cash flow positive next year.

Please call or write with questions.

All the best,

Marek Ciszewski, J.D.
